## It's Not You It's Me

## Jaci Velasquez

Funny, how we say 'It's going to be OK'
But funny isn't always humorous
It's sunny in the dark and dark in the day
Somehow we hope it will be alright
We'll make it to the light

Hold on, I would miss you so much Don't go over something so little You're wrong cause I finally see It's not you, it's me It's not you, it's me

Funny, how you're still my sweet fairy tale Funny, how you're still my dream It's crazy how you can break my heart and you still are the air I breath Please, don't leave

Hold on, I would miss you so much Don't go over something so little You're wrong cause I finally see It's not you, it's me It's not you, it's me

Don't waste time cause we don't have forever Love's not blind or we would be together

Hold on, I would miss you so much Don't go over something so little You're wrong cause I finally see It's not you, it's me It's not you, it's me

I gotta forgive, I gotta let go 'Cause I'm the only one that I can control
