

Made My World

Jaci Velasquez

I never thought of what I could be
Where I'd go
What I'd do

I never thought of what I should be
Until you

You came into my life
When I was all alone
You came down
And saved my soul

When I found my world was crashing
And I thought I'd lost my passion
You came and laid a hand
On this little girl
When I thought my dreams were fading
I looked up and saw you waiting
You reached your hand down
And you made my world

I never thought of where I might be
If I turned away from you

I never thought of all I would need
Without you

You came into my life
When I was all alone
You came down
And saved my soul

When I found my world was crashing
And I thought I'd lost my passion
You came and laid a hand
On this little girl
When I thought my dreams were fading
I looked up and saw you waiting
You reached your hand down
And you made my world

You came down
When I was all alone
You came down
You came down
And saved my soul

When I found my world was crashing
And I thought I'd lost my passion
You came and laid a hand
On this little girl
When I thought my dreams were fading
I looked up and saw you waiting
You reached your hand down
And you made my world

When I found my world was crashing

And I thought I'd lost my passion
You came and laid a hand
On this little girl
When I thought my dreams were fading
I looked up and saw you waiting
You reached your hand down
And you made my world

Oh, you made my world
You came and changed it all
