A young Bobby Darin, the way that I put in work on the mic  
Staying up all night I certainly might

Oh, I want you all the time, yeah  
Breathe in my life, feel it in my spine  
So get down on the floor  
Let it take control  
It's got me wanting more

So please don't stop  
Please, please don't stop, please  
It leaves my feet just wanna  
C'mon baby let me in  
Till I will let you loose  
So much that we could do (groove)

From the Mediterranean all the way to the cities without names and shit  
Not gonna allow, I'm just a crazy kid who's chasing his
