

# And Our Faces Wither

Jack Frost

and now I walk away  
my entire past I've swallowed

the days are gone  
when we did glow  
time has passed  
I failed to grow

[Chorus:]  
and our faces wither

and now I leave my way  
my entire life got swallowed

the days are gone  
when we did glow  
time has passed  
I failed to grow
