

From Here On Out

Jack Greene

From here on out, I'm gonna love you like I should
From here on out, you're gonna see this side that's good
In days to come I'll prove I love you far beyond the doubt
There'll be a change in me from here on out

No one could ever treat me better than you did
No one could love me more completely than you did
But I tore your world to pieces, nearly turn your love light out
But there'll be a change in me from here on out

From here on out, I'm gonna love you like I should
From here on out, you're gonna see this side that's good
In days to come I'll prove I love you far beyond the doubt
There'll be a change in me from here on out
There'll be a change in me from here on out
