

# I Turn My Mind On You

Jack Greene

I knew the day you turned away  
I'd never get over you  
I've found someone to take your place  
I've known that she won't do

She's like you in so many ways  
It hurts me through and through  
And every time she turns to me  
I turn my mind on you

She gives me so much love  
I should forget but I know, I never will  
She holds me till I fall asleep  
And that's when my mind is still

She turns to me to love her  
But somehow I never do  
For every time she turns to me  
I turn my mind on you

She gives me so much love  
I should forget but I know, I never will  
Every time she turns to me  
I turn my mind on you
