

I Turn My Mind On You

Jack Greene

I knew the day you turned away
I'd never get over you
I've found someone to take your place
I've known that she won't do

She's like you in so many ways
It hurts me through and through
And every time she turns to me
I turn my mind on you

She gives me so much love
I should forget but I know, I never will
She holds me till I fall asleep
And that's when my mind is still

She turns to me to love her
But somehow I never do
For every time she turns to me
I turn my mind on you

She gives me so much love
I should forget but I know, I never will
Every time she turns to me
I turn my mind on you
