## **Barefoot And Crazy**

**Jack Ingram** 

The clouds are partin, The summer sun's startin to burn down on that river My baby's waitin, I got the chevy shakin I'm blazin a trail to get her, there she is

She's got her shades on and man she's lookin strong Mine all mine for the weekend The cooler's loaded down, We're headed outta town Jumpin off the deep end

We're goin barefoot and crazy Me and my baby Back flip off the flip right bridge double dog dare me and i will meet me at the bottom with a cool wet kiss

She's rockin that bikini top My hearts skippin like a rock across that water Don't ever wanna stop Goin barefoot and crazy

The sun is droppin, We got the fire poppin And it's lightin up her blue eyes With a little bit of luck It'll heat things up & We'll be lovin in the moonlight

Break out my old guitar, Sing fishin in the dark Baby get ready We'll take a little sip We'll take a little dip And sleep in the bed of my Chevy

Goin barefoot and crazy, Me and my baby Just me & her & the man in the moon Drinkin on a cold bud brew Mornins gonna come way too soon

We'll wake up and Do it all again Wishin it would never end Anybody asks where we've been Tell em Barefoot and crazy

Barefoot and crazy, Me and my baby I did a back flip off the flip right bridge Double dog dared me and I did Met me at the bottom with a cool wet kiss

She's rockin that bikini top My hearts skippin like a rock across that water Don't ever wanna stop

Goin barefoot and crazy Don't ever wanna stop, Don't ever wanna stop Goin barefoot and crazy
