Make My Heart Flutter

Jack Ingram

No one can make me stammer and stutter Fall over every word that I utter No one else can talk me to takin' another view No one else can make my heart flutter like you

No one drives me to exasperation Nobody gives my heart palpitations Except for you, it's no exaggeration, it's true No one else can make my heart flutter like you

No one else can make my heart flutter There's a hole over me and it's gettin' no cover Till you tell me you'll be my lover And you're convinced we were made for one another You are the one and there ain't no other

No one else can peak my desire No one else makes me a spinnin' tire Turnin' churnin' and burnin' on fire for you No one else can make my heart flutter like you

No one else can make my heart flutter There's a hole over me and it's gettin' no cover Till you tell me you'll be my lover And you're convinced we were made for one another You are the one and there ain't no other

No one else can peak my desire No one else makes me a spinnin' tire Turnin' churnin' and burnin' on fire for you No one else can make my heart flutter like you

No one else can make my heart flutter like you Flutter like you, flutter like you, flutter like you Flutter like you, flutter like you
