## **One Lie Away**

**Jack Ingram** 

Everything I ever wanted Is one lie away To be so close and now to know There's nothing we can say

For the things I can't take back Severely I will pay And everything I ever wanted Is one lie away

Being so wrong doesn't take long Not holding on goes on and on

And if you could see what's left of me Has to go through everyday You'd know everything I ever wanted Is one lie away

Being so wrong doesn't take long Not holding on goes on and on

No you can't take back your actions Only hope, pray and change And everything I ever wanted Is one lie away

Everything I ever wanted Is one lie away, one lie away
