Run To Me

Jack Ingram

When the clouds are low, close to the ground
And you look for help, there's no one around
And you know the worst has yet come down
Run to me

When the waters up around your neck
And everything around you is just a wreck
And you know that you got nothing left
Run to me

Run to me
I'll hold you up in front of me
Yeah, run to me
I won't let you down

I'm the one that you can turn to
When everyone has let you down
And when the fires outside have burned you
And you think there's no way out

I'm the one that you can turn to
When everyone has let you down
And when the fires outside have burned you
And you think there's no way out

And when you're sure nobody understands
And you've quit lookin' for a helping hand
Hey, forget all that 'cause I'm still your man
You can run to me

Run to me
I'm standin' here and I'll always be
Yeah, run to me
I won't let you down
I won't let you down
