We could let this love be the fadin' sky And we could drift all night until the new sun rise Pass me a drink or make that two With one for me and one for you

And we'll be free Free, free, free

Here comes corner winds and the changin' tide We better drop them sails and get inside When will the weather ever let us go I guess we'll have to wait until the trade winds blow

And we'll be free Free, free, free

There's nothing in between what we are, what we see There's nothing in between what we are, what we see What we are, we are just

On a life boat sailin' home With our drunken hearts and our tired bones Well, I just take one last look around Yeah, and every place feels like a familiar town

And now we're free, free And don't you wanna be free From time to time a little free

Hey now, now free I know you know you're free Feels so good to be free, free
