

# Gather

Jack Johnson

Some of us need to gather  
And others gonna have to kill  
With everybody so preoccupied  
Who's gonna pay the bills?

If anybody finds a flame  
You gotta keep it safe and dry  
If anybody goes for coffee  
Well, then, give me a piece of the pie, a little piece of the pie

And then we gotta try to harvest  
Somebody's gonna have to till  
And what about a little shelter?  
What about a big house on the hill?

And who's gonna tend the garden  
If the rain forgets to fall?  
And who's gonna spend as much as they can on Baby Jesus at the mall?

Some of us need to gather  
And others gonna have to kill  
With everybody so preoccupied  
Who's gonna pay the bills?

Now we got ourselves a surplus  
Let's put it away for a while  
We'll bring it back if we get hungry  
Or just fashionably out of style

And who's gonna try to fix this one?  
Somebody please stop the car  
And who's gonna give me some good news and  
Who's gonna take it too far?

Come on, let's take it too far  
Come on, let's take it too far  
Come on, let's take it too far  
Come on, let's take it too

Some of us need to gather  
And other's are gonna have to kill  
With everybody so preoccupied  
Who's gonna pay the bills?

Well some of us need to gather (some of us need to gather)  
Some of us need to gather (some of us need to gather)  
Some of us need to gather (some of us need to gather)  
Who's gonna pay the bills (come on, let's take it too far)  
Who's gonna pay the bills  
Come on, let's take it too far  
Who's gonna pay the  
Come on let's take it too far  
Who's gonna pay the
