

# The First Night Of The Full Moon

Jack Jones

On the first night of the full moon  
Wait for me down by the shore  
On the first night of the full moonlight  
I will be returning and I'll never leave you any more

Oh, my darling, it's time for us to part  
Take my heart and promise you'll be faithful  
It's the last time I'll sail the ocean blue  
Say you'll be there when I come back to you

I will bring you a lamp to light your room  
Rare perfume and yards of silk and satin'  
And an ocean of pearls upon a string  
'Round your fingers I'll place a wedding ring
