

Media C-Section

Jack Off Jill

Caught me with your video lies, it gives you something to lie about

Watch me with your retail eye, it gives you someone to spy on

Stab me with your double-blade knife, it gives you something to cry about

Drive me with your chemical high, it gives you something to write on

I may be an evil girl, with my colgate smile,

And if I am an evil girl, you put me on trial

I want to kill on video, I want to go real far

Let me kill celebrities, and be your next media superstar!

Scare with your little disguise, it gives me someone to hide from,

Eating all your roaches and flies, in my mouth like bubble gum

Scar me with your venomous lies, you always have to remember,

Feed you with them razorblades, cause nothing lasts forever!

I may be an evil girl, with my colgate smile,

And if I am an evil girl, you put me on trial

I want to kill on video, I want to go real far

Let me kill celebrities, and be your next media superstar!

Buy me, kill me, fuck me!

Buy me, hurt me, watch me, you destroy me

(I can't take this shit)
