

Body Down

Jack Peñate

He's gonna take you in the end
So you might as well become his friend
Be proud when he walks by your side
Hold that head up boy and feel some pride

You're gonna go soon, go soon
Go down the parlor
Pick you up and put you in a shirt and a collar
Drive you down the road and lay your body down
Drive you down the road and lay your body down

If I didn't make ever damn day such a sin
Then I don't think I would know where to begin
If I couldn't do all those bad things I loved to do
I'd take myself and wanna wait for you

You're gonna go soon, go soon
Go down the parlor
Pick you up and put you in a shirt and a collar
Drive you down the road and lay your body down
Drive you down the road and lay your body down

Body down
(Body down)
Body down
(Body down)

Body down
(Body down)
Body down
(Body down)

Had a wonderful time here
Had a wonderful time here
Had a wonderful time here

Had a wonderful time here
Had a wonderful time here
Had a wonderful time here, oh

I had a wonderful time here
Had a wonderful time here
Had a wonderful time here, oh

You're gonna go soon, go soon
Go down the parlor
Pick you up and put you in a shirt and a collar
Drive you down the road and lay your body down
Drive you down the road and lay your body down
(Oh)
