

What Gets You Off

Jack's Mannequin

It was last night
At our empty warehouse party
Ah, ah
And there in the blacklight
I could see the tattoos glowing on your body, well
Oh, oh
Oh, oh

And she said to meet her there, beside the power station
Oh, oh
And she said she'd let me stare
If the chemicals don't keep her waitin', well

Oh, oh
Yeah, woah, oh

Well I'm always coming down from the night before I left you
Yeah I'm always coming down but I'm doing my best to get caught
Yeah I'm always coming down from the night before well I bet you
To hear that gets you off
What gets you off
What gets you off

Red fingernail polish
Peeling like a sunburn
Ah, ah
That black designer dress looks better underneath our feet
Yours knees in the dirt

Well, oh, oh
Oh, oh, oh oh oh

Well I'm always coming down from the night before I left you
Yeah I'm always coming down but I'm doing my best to get caught, yeah
And I'm always coming down from the night before well I bet you
To hear that gets you off
What gets you off
What gets you off

Yeah
What gets you off
Oh, oh, oh
Yeah

Well I'm always coming down from the night before I left you
Yeah I'm always coming down but I'm doing my best to get caught
And we're always coming down from the night before well I bet you
To hear that gets you off
What gets you off
What gets you off
What gets you off

Oh, oh
What gets you off
What gets you off
What gets you off
