

# My Dream Came True

Jack Scott

One look at you  
One night with you  
Suddenly I fell in love with you  
Oh my darling, my darling  
You're my dream come true

The night is young and I believe  
That destiny brought you to me  
Oh my darling, my darling  
You're my dream come true

I shall always love you  
I will always care  
And should you love somebody new  
I'll always picture you there

I misty blue  
While you're away  
I'll love you, my darling  
Until my dying day  
Oh my darling, my darling  
You're my dream come true

Oh my darling, my darling  
You're my dream come true
