

# Just One Drink

Jack White

You drink water  
I drink gasoline  
One of us is happy  
One of us is mean  
I love you  
But honey, why don't you love me?  
Yeah, well, I love you  
But honey, why don't you love me?

Just one drink gets me closer  
Just one drink, it rolls you over  
But then I start to think you're growing colder  
The older and older, I am

Well, I watch TV  
You watch the ceiling  
And when you turn over  
I get a funny feeling  
I should grab my rock and rye  
And pop the top until my baby comes clean  
Yeah, I should grab my rock and rye  
And pop the top until my baby comes clean

Well, just one sip and then you showed me  
You bust your lip, I want spottieottie  
So, c'mon take one trip if you wanna know me  
And put a fork in the road with me  
Alright

Just one drink gets me closer  
Just one drink, it rolls you over  
But then I start to think you're growing colder  
The older and older, I am

You drink water  
I drink gasoline  
One of us is happy  
One of us is mean  
I love you  
But honey, why don't you love me?  
Yeah, well, I love you  
But honey, why don't you love me?

Yeah, I love you  
Honey, why don't you love me?  
I love you  
Honey, why don't you love me?  
Oh!
