

Bedroom In Space

Jackie Boyz

Every time we're loving
We go to another place
I think tonight I'll be your astronaut
Cos I'm floating in your milky way
Oh oh oh we can gravitate if you want to
If you want to
I love when you take me down
And we can levitate if you want to
If you want to

I'm here for the ride
Take me to a.. bedroom in space
We can go higher than we've ever known
Give the stars a show
Explore my body you can take me away
Bedroom in space
We can go higher than we've ever known
You're my telescope
So explore my body you can take me away

Wrap my hands and pin me down
Cos we're heading for a bumpy ride
So before we blast off baby lets count down
I'll do anything you like
Oh oh we can gravitate if you want to
If you want to
I love when you take me down
And we can levitate if you want to
If you want to

I'm here for the ride
Take me to a.. bedroom in space
We can go higher than we've ever known
Give the stars a show
Explore my body you can take me away
Bedroom in space
We can go higher than we've ever known

You're my telescope
So explore my body you can take me away

Feels like.. heaven
When we're.. making love
Tonight.. our stars will aline
Ohhhh

Bedroom in space
We can go higher than we've ever known
Give the stars a show
Explore my body you can take me away
Bedroom in space
We can go higher than we've ever known
You're my telescope
So explore my body you can take me away

Bedroom in space
We can go higher than we've ever known

Give the stars a show
Explore my body you can take me away
Bedroom in space
We can go higher than we've ever known
You're my telescope
So explore my body you can take me away

Bedroom in space
We can go higher than we've ever known
Give the stars a show
Explore my body you can take me away
Bedroom in space
We can go higher than we've ever known
You're my telescope
So explore my body you can take me away
