Welcome show me love while you're looking like a stranger
Tell me what it is what you're giving up
I can see you're wandering on that you're looking for some danger

Girl I want it too, yeah I'm trying good
I see that look yeah, on your face, I'm gonna... just to get away, yeah

I see you with your girls trying to choose
So baby what you wanna do?

They got It moving, we got them choosing up in here, choosing
I wanna know which one is better, better, better

They don't even go to work, it's choosing

I'm a say it's hot, say it's hot then say bye-
bye to her, choosing

I'm a say it's hot, say it's hot then say bye-bye to her, yeah

See you over there with your girlfriends, whispering and looking at me you know what the deal is

Truth that I'm a monster, I got a lot to offer, you

So what you wanna do? Baby you just need to choose

I'm a little drunk but so what, I can get it up, oh, satisfaction guaranteed, oh

They got It moving, we got them choosing up in here, choosing
I wanna know which one is better, better, better

They don't even go to work, it's choosing

I'm a say it's hot, say it's hot then say bye-
bye to her, choosing

I'm a say it's hot, say it's hot then say bye-bye to her, yeah

It's getting hot up in here, sex is all in the air, we can both disappear, oh

There's no need to wait any longer all I gotta say
