

## Circles

Jackie Boyz

Baby I been tossing turning in my sleep  
And I'm waking up and I'm wishing you were her with me  
But your home and yet again I'm left alone  
I'm soo cold

We had a talk and somehow turned into a fight  
I made a comment and suggested you should move  
And it was because you said you couldn't be with out me  
I'm soo confused baby

You got me going in circles  
I don't know where I'm coming from or which way I should go ohh  
One day tellin me yes next day you tellin me no  
All that I want is you,  
Tell me what I should do

I never But it seems like you change your mind  
Like your so weather  
I'm not a psychic but I can see it's getting ssooo cold

All I wanna know is if you'll still be loving me  
All I wanna know is when you smell your thinking of mee  
If that's the case then just go on and tell me but you won't  
I'm so confused

You got me going in circles  
I don't know where I'm coming from or which way I should go ohh  
One day tellin me yes next day you tellin me no  
All that I want is you,  
Tell me what I should do

You got me going in circles  
I don't know where I'm coming from or which way I should go ohh  
One day tellin me yes next day you tellin me no  
All that I want is you,  
Tell me what I should do

Na na na na na  
Say na na na na na  
[till end of song]
