

# Face The Music

Jackie Boyz

Looks like I finally hear that song  
That you were singing  
Singing all along  
You told me someone had your heart  
(Heart heart heart heart)  
But I'd rather have a piece of you  
Than nothing at all

Strings in my heart  
And it sounds like thunder  
Orchestra in the background  
Pulling me under  
Growing further apart  
From the soundtrack of us  
I knew that it would take me

I gotta face the music  
Cause you're not worth never mind And I wasted all this time?  
To only face the music  
I know I gotta do this  
And it hurts more and more  
I knew it  
That I would face the music  
Oh  
I gotta face the music

See the damage  
Girl, the damage was already done  
Before I got in this  
I already knew what it was  
Yeah, oh  
Who would've known  
That it would hurt so bad  
Watching you stay  
With that other man  
And I knew it was what I asked for  
I didn't mean to fall so hard

Strings in my heart  
And it sounds like thunder  
Orchestra in the background  
Pulling me under  
Growing further apart  
From the soundtrack of us  
I knew that it would take me

I gotta face the music  
Cause you're not worth never mind And I wasted all this time  
To only face the music  
(Face the music)  
I know I gotta do this  
And it hurts more and more  
I knew it  
That I would face the music  
Oh, oh  
I gotta face the music
