

## Dream With Me

Jackie Evancho

If I could capture the moon  
And paint a sky full of blue  
Fight scattered storms  
To light the night  
If I could skip along clouds  
And hear the wind sing out loud  
Rewrite the rhyme  
And slow down time  
I see a world  
Where every boy and girl  
Has all they need  
To live free  
Imagine all words that's kind  
With not a child left behind  
Where everyone  
Could share the sun  
Life is only a dream  
Dream with me
