

# Have You Ever Been in Love

Jackie Evancho

Have you ever been in love?  
Feels just like a mystery,  
A story written on the stars,  
Jupiter and Mars  
Well, I can't see that far.

Have you ever been in love?  
It's just like a kaleidoscope,  
A thousand tiny shards,  
The colours of your heart,  
Together and apart.

And I'm happy to believe  
But if it's just a feeling,  
How will I know?  
And if it's something fleeting,  
Where does it go?  
And can I keep holding it all,  
Together alone?  
Lately I've been needing love?

Have you ever been in love?  
It feels just like a showdown.  
The company I keep  
Lying at my feet,  
You get what you deserve.

Have you ever been in love?  
It feels just like a land mine.  
The fire in the bright,  
The silence and the spite,  
And nothing's ever right.

And I'm happy to believe  
But if it's just a feeling,  
How will I know?  
And if it's just a fleeting,  
Where does it go?  
And can I keep holding it all,  
Together alone  
Lately I've been needing love

And maybe what I see,  
And maybe what I need,  
What I cannot believe  
But I'm happy to believe in love

Have you ever been in love?  
It feels just like home.  
And every time it leaves,  
Me crying on my knees,  
I pray for it again.
