

I Don't Care About My Baby

Jackie Greene

I don't care about my baby, she don't care about me
No, I don't care about my baby, and she don't care about me

Walking down the avenue, seems I'm always running into you
You got nothing for me, you got no words to say
But I guess you never did anyway
And I don't care about my baby...

There was a time when you cared for me,
Honey, there was a time you prepared for me
But those days are gone, yes they're down the drain
You got to find someone else to call your name
Cause...
I don't care about my baby...

There was a time when you loved me so,
Honey there was a time you wouldn't let me go
Those days are gone and I'm well aware
Those days are gone but I just don't care
And I don't care about my baby...

Someday soon, and it won't be long
Somebody's gonna hurt you, somebodys gonna do you wrong
And you'll be crying, don't you come my way
I'll just look at you and laugh and then I'll say:
"I don't care about you baby..."
