

# Just As Well

Jackie Greene

There must be something wrong with me  
There must be something happening that I don't even see  
What's it's gonna be  
Oh it's just as well

I can't believe the state I'm in  
I think I think too much and now my thoughts are wearing thin  
Where should I begin  
Oh it's just as well

And all I wanted from you  
Love me like you want it  
I can't keep your heart if your heart can't be kept satisfied

I like to watch the sun go down  
I like to watch it sinkin' from the other side of town  
It's sad to know you're not around, oh it's just as well

So much for those summer days  
We use them up so quickly and  
Who cares anyway, oh it's just as well

And all I wanted from you  
Love me like you want it  
I can't keep your heart if your heart can't be kept satisfied

So even if the walls crumble down  
Tumble down on me  
I could find my own way out  
I could set my own self free

So tell me tell me what's the use  
I'm nothing but a singer with my head caught in the noose  
Somebody cut me loose  
Oh it's just as well

I don't want no sympathy  
To feel a beating heart honey is what's?  
I know you don't agree  
Oh it's just as well

And all I wanted from you  
Love me like you wanted  
I can't keep your heart if your heart can't be kept satisfied

All I wanted from you  
Love me like you wanted  
I can't break your heart if your heart can't be kept satisfied

Romeo and Juliet  
Were made for one another way before they even met  
Such a face I can't forget  
Oh it's just as well
