

# Till The Light Comes

Jackie Greene

Broke down on a back road  
Can't find no cover anywhere I go  
I need the comfort of a girl I know, from back in my hometown

One line mama, one kiss  
How you gonna stand there, don't ya do me like this

You got the bullets that don't ever miss  
They lay me on the ground

I want to see you in the light  
I'm gonna keep you in my sight till the light comes

Oh I

My friends don't know me  
They cook me in the fire in the third degree  
I ain't nothing like I used to be  
Lord I'm sinking down

Swing wide mama, swing low  
Come on love me baby before I have to go  
You got the whip, baby I got to I roll  
Unless I want to drown

I want to see you in the light  
I'm gonna keep you in my sight  
Till the light comes  
Oh and I want to see you in the light

Oh and I  
Gonna keep you in my sight  
Till the light comes

Ohhh

How can I get closer to you?  
What am I to do?  
Only thing I ask of you  
How can I get closer to you?  
What am I to do?  
Only thing I ask of you
