

## Sour Milk Sea

Jackie Lomax

If your life's not right, doesn't satisfy you  
You don't get the breaks like some of us do  
Better work it out, find where you've gone wrong  
Better do it soon as you don't have long  
Get out of Sour Milk Sea  
You don't belong there  
Get back to where you should be  
Find out what's going on there

If you want the most from everything you do  
In the shortest time your dreams come true  
In no time at all makes you more aware  
A very simple process takes you there  
Get out of Sour Milk Sea you don't belong there  
Get back to where you should be  
Find out what's going on there

Looking for release from limitation?  
There's nothing much without illumination  
Can fool around with every different cult  
There's only one way really brings results  
Get out of Sour Milk Sea you don't belong there  
Get back to where you should be  
Find out what's going on there

Get back to where you should be  
Find out what's going on there

Get back, get back, get back  
Why don't you get back now  
You don't belong here  
Get out of here, babe
