

# Knock on Any Door

Jackson Browne

Knock on any door  
Look through any window  
Baby knock on any door  
Knock on any door  
Is there any place you want to go  
Baby who you lookin' for

Yeah, yeah, baby now you know  
It's a cold world like they told you so

Knock on any door  
Save your tears for some occasion  
Keep your heartache to yourself  
Knock on any door  
It's a simple operation  
Just trade your memory for your health

Knock on any door  
Look through any window  
Walk on  
Knock on any door  
Look through any window  
Walk on

It's insane girl, you can't run away  
It's the same world it was yesterday

Knock on any door  
Look through any window  
Walk on  
Knock on any door  
Look through any window  
Walk on

Now, now, now how do you survive  
With a pain so real, in a world so jive

Knock on any door  
Look through any window  
Peek through any shade  
Knock on any door  
Look through any window  
Walk on
