

Cinderella Stay Awhile

Michael Jackson

Cinderella, stay awhile
You're the one
That's I'm lookin' for
Cinderella, bring your smile

All around me sunbeam's
Start to fall
Being my dear so near
Please don't disappear
Now that you are here
Stay awhile

Cinderella, I just know
That the magic slipper's
Going to fit
Cinderella, do not go

You're my princess
I am sure of it
This is love for sure
Loving sweet and pure
Love that will endure
Stay awhile

When you speak the angels all sing
His is the kind of magic you bring

Cinderella, stay awhile
This is like a fairytale with you
Cinderella, bring your smile

All my fairy tales are coming true
When my only fear
Is being my dear so near
Please don't disappear
Stay awhile

(Fairytale, make-believe and you)

Cinderella, stay awhile
Don't you go
