If N' I Was God

Michael Jackson

If'n I was God
Well just for spite
I wouldn't set the sun at night
'Til everyone was treated right
By everyone else they see

If'n I was God I'd fix it so without explaining Folks would know, they'd know What's going on inside Of everyone else like me

Nobody hurt nobody else Oh no I wouldn't let it be Nobody have a need to pray Except for thanking me

If'n I was God I'd make us wise So everyone could realize That everywhere beneath the sun Everyone needs, everyone

And God that in heaven what I would do If'n I was you If'n I was God Love each other, reach out And touch somebody's hand
