We've Got Forever

Michael Jackson

I'll plant you a garden Of laughter and tears With rain and with sunshine Love will grow through the years The dreams that we're dreaming Have time to come true And forever is meant for so very few

We shall have music We shall have rhyme We shall have each other One minute after the end of time

Then we'll add up the pleasure And treasure the sums Caring is sharing A cake and the crumbs

How lucky we are to be me and you And forever is meant for so very few
