

## Down To You

Jackson United

No notice of the world around you  
Take for granted it revolves around you  
Not what you're shooting for  
Crashing back to the shore

Smart mind, a little bit racist  
No respect even in your own self  
Instantly you're gratified  
Self serve to satisfy

All done to you  
All the same to you

Got some pills to make you happy  
Hope I don't bore you  
Forever I'll you know you might be  
I won't ignore you

All done to you  
All the same to you  
All done for you

Dying in your bed  
Lying in your head  
It's all the same to you  
Lying in your bed  
Dying here instead  
It's all been done to you

No notice of the world around you  
Take for granted it revolves around you  
Instantly you're gratified  
Self serve to satisfy

All done to you  
It's all the same to you  
All done to you  
No different to you
