

Fell Into

Jackson United

Do what you want
Do what you please
Take everything
Bleed with me

Here, dry your eyes
Let me pacify
While you justify
Bleach white the lies

Fell into a better vision of you
You used to be in love with your ego
Lay where you fell
A little slip of your will
You think you do but you don't know

Do what you want
Do what you please
Take everything
Bleed with me

Fell into a better vision of you
You used to be in love with your ego
Lay where you fell
A little slip of your will
You think you do but you don't know
