

Blast Off

Jacob Latimore

Check your watches

Yea

Body like OCD, here to tell ya

Cudos to your craft

Me, I'm like the plane above ya

No need for a landing

You look good like a sculpture

Like somebody's passion

I startin to get to know ya,

Tell me what your plans is

[Verse: Jacob Latimore]

I had to approach ya, you were such a talent

Tennis ah like Serena sit up like a stallion

Girl you deserve the finest designers in this fashion

Come take for the little paper

Just to make it happen

Flyin' around it that rocket

You can call me NASA

Co-pilot of my cockpit I'll make sure that I strap up

[Pre-Hook]

Compliment my aura, I love you're decora

Ride around in that Bentley Azure... ohhhhhhhh

Come back to my launch back girl if you ain't been up before

I'mma take you so high

Crash land in my bed, baby I'mma have you seeing stars

[Hook]

Girl you know we bout to blast off, blast off

Girl you make me wanna blast off, blast off, blast off

Houston, Houston we got a problem

I said Houston, Houston shawty's a problem

Blast off, blast off, blast off, blast off, blast off

Houston, Houston we got a problem

Said Houston, Houston shawty's a problem

5,4 leggo leggoo... 3,2 legoo legoo

1 blast off

Blast off, blast off, blast off

[Verse 2]

Girl you should let me coach ya

You'd be guaranteed to win

Stop messin' with these suckas

Their swagger need to hit the gym

Once I get hands on ya, you can go nowhere but up

It's so good it's necessary so just let me show ya baby

I'm fly and they're not me, them niggas are the actors

Confident I'm not cocky... girl you're the one I'm after

[Pre-Hook]

Compliment my aura; I love you're decora

Ride around in that Bentley Azure... ohhhhhhhh

Come back to my launch back girl if you ain't been up before

Don't miss your chance to make this rocket blow
But I don't wanna blast off in it
Who you kiddin', young and gettin' it
So she want a little Simmons (ha)!!
Shake it like you nervous I work hard so I deserve it
And you don't get this often so don't front when we in person
I'm kinda thinking you worth it
So make your way to this room
