

# You Come First

Jacob Latimore

[Verse 1]

Put you on a pedestal,  
Take you real high.  
Like to see my lady and  
The way she react when I keep her satisfied.  
Not to stroke my ego,  
But I do it well.  
Plus she does it better when  
I get her to the point she forget to exhale

[Pre-Chorus]

Baby girl,  
You gon' always be in every part of me.  
Nothing else,  
Even matters when your with us flowing babe.  
Trust me girl,  
When it all falls down we keep it going.

[Chorus]

Can't help it, baby.  
Just got to be unselfish lady,  
And make sure that you come, first.  
You can understand, girl  
As long as I'm your man  
You gon' always come, first.  
Show you I ain't playing, baby  
Listen what I'm saying you gon' always come first.

[Verse 2]

Wherever you wanna go,  
Baby, I'll can take you there.  
Ima take the scenic route,  
Girl Ima show you there ain't no playing games here.  
Give you that inception,  
Get all in your brain.  
And hit you with a dream  
Till' you hit that falsetto, ain't no way you'll escape.

[Pre-Chorus]

[Chorus]

[Bridge]

It's all about you girl,  
I don't mind comin' in second.  
Imma let you take the lead girl,  
Every time and it's no question.  
You'll gon' get every thing you need, baby.  
I aim to please as long as you're here with me.

[Pre-Chorus]

Baby girl,  
You gon' always be in every part of me.  
Nothing else,  
Even matters when your with us flowing babe.  
Trust me girl,  
When it all falls down we keep it going.

[Chorus]

Can't help it, baby.

Just got to be unselfish lady,

And make sure that you come, first.

You can understand, girl

Is long as I'm your man

You gon' always come, first.

Show you I ain't playing, baby

Listen what I'm saying you gon' always come,

You gon' always come

You gon' always come, first!!
