

# I Know What You Did Last Summer

Jacob Whitesides

Black sins, white lies  
Cold hands in the midnight  
Under the water, under the water  
We make love  
There was a blanket covering everything you never said  
We were Atlantis, all of the sunken ships inside its veils  
Under the water, under the water  
We lost blood

I know what we did last summer  
And you won't let me forget it  
You won't let me forget it  
I know what we did last summer  
How you gonna do that to me?  
How you're gonna do that to me?  
You don't know what you did

Seashells all over my skin  
Drifting from the island  
Under the water, under the water  
Can't see sea  
Oh and I'll blow tequila, don't taste the same  
Boy, you got me feeling some type of way  
I'm on an island so full of pain  
Under the water  
Stuck in the water, in vein

I know what we did last summer  
And you won't let me forget it  
You won't let me forget it  
I know what we did last summer  
How you gonna do that to me?  
How you gonna do that to me?  
I know what we did last summer  
You won't let me forget it  
No, you won't let me forget it  
I know what we did last summer  
How you gonna do that to me?  
How you're gonna do that to me?  
You know what you did  
How you gonna do it baby, how you gonna do it baby?  
I know what we did last summer  
And you won't let me forget it  
You won't let me forget it  
I know what we did last summer  
How you gonna do that to me?  
How you gonna do that to me?

You know what you didBlack sins, white lies
