Victory

Jacobs Dream

The time has come to take a stand for what is right And to resist the attacks from the enemy Never back down Stand strong for what you believe Stand united as one From the ashes to victory

Come rush the stage Take your place it's all right Nothing can stop us No mountain too high

Don't live your life t look back and regret What could've been if you had tried

Take hold the power It flows from our hands Bringing the music alive

Lift your hands Receive from on high The spirit of life Speak His name Shout for the power and feel the fire

We won't play the fool for silver and gold No sell out and no compromise

Born to a purpose A calling, a life Burning inside with fire

Shed now your bonds The corpse that would hold Take wings as an eagle and fly

In the end the wicked ones with their treasure will burn

Light the flame Don't let the chance pass It may never return

(1st chorus)
Seize the day
Leave the fools behind
Who would stand in your way

Take my hand We will surely arise from the ashes to victory

(2nd chorus) Seize the day Set your eyes on tomorrow Say farewell to yesterday

Find your way To the brave goes the glory The warrior's destiny
