

# It's Our World

Jacquie Lee

The sun keeps rising every day  
Time to run  
Time to play  
The wind is smiling on my face

There's something about  
Your melody  
Hear it singing through the trees  
The rhythm's taking over me

Let's go, let's take a ride  
Let's go light up the night  
I got you by my side  
We'll survive

It's Our World!  
One song for you and me  
It's Our World!  
You're making me believe

No matter where we go  
This world will guide us home  
I feel it under my feet!

It's Our World!  
Let's be the change we need  
It's Our World!

You got to crawl before you climb  
You might fall, but it's alright  
A little rain  
A little light

We're living like tomorrow's now  
Taking on the ups and downs  
Don't get dizzy  
Spin around

Let's go, let's take a ride  
Let's go light up the world  
I got you by my side  
We'll survive

It's Our World!  
One song for you and me  
It's Our World!  
You're making me believe

No matter where we go  
This world will guide us home  
I feel it under my feet!

It's Our World!  
Let's be the change we need  
It's Our World!

This world

Keeps spinning  
'Round and 'round  
In our hands...

It's Our World!  
One song for you and me  
Yeah, It's Our World!  
You're making me believe

No matter where we go  
This world will guide us home  
I feel it under my feet!

It's Our World!  
Let's be the change we need  
It's Our World!

It's Our World!!!  
One song for you and me  
It's Our World!!!  
You're making me believe

No matter where we go  
This world will guide us home  
I feel it under my feet!

It's Our World!  
Let's be the change we need  
It's Our World!
