

It's Our World

Jacquie Lee

The sun keeps rising every day
Time to run
Time to play
The wind is smiling on my face

There's something about
Your melody
Hear it singing through the trees
The rhythm's taking over me

Let's go, let's take a ride
Let's go light up the night
I got you by my side
We'll survive

It's Our World!
One song for you and me
It's Our World!
You're making me believe

No matter where we go
This world will guide us home
I feel it under my feet!

It's Our World!
Let's be the change we need
It's Our World!

You got to crawl before you climb
You might fall, but it's alright
A little rain
A little light

We're living like tomorrow's now
Taking on the ups and downs
Don't get dizzy
Spin around

Let's go, let's take a ride
Let's go light up the world
I got you by my side
We'll survive

It's Our World!
One song for you and me
It's Our World!
You're making me believe

No matter where we go
This world will guide us home
I feel it under my feet!

It's Our World!
Let's be the change we need
It's Our World!

This world

Keeps spinning
'Round and 'round
In our hands...

It's Our World!
One song for you and me
Yeah, It's Our World!
You're making me believe

No matter where we go
This world will guide us home
I feel it under my feet!

It's Our World!
Let's be the change we need
It's Our World!

It's Our World!!!
One song for you and me
It's Our World!!!
You're making me believe

No matter where we go
This world will guide us home
I feel it under my feet!

It's Our World!
Let's be the change we need
It's Our World!
