

Anymore

Jaded Heart

God gave us the power
You see what we use it for
We drag ourselves under
You can see what we're striving for
But soon it's over
We have proofs in our history
Ain't getting better, no
It's getting worse and we all will see
My fried

Can't you see the bad signs
We're closer to the deadline now, than before
I know after the green light
No, we can't find solutions within a war
Anymore, anymore

It only takes one stupid action, one mistake
For a chainreaction
So let's terminate, who invades for the bad
It's a sticky situation, that's what it is
So lord why don't you help us thru this time

Can't you see the bad signs
We're closer to the deadline now, than before
I know after the green light
No, we can't find solutions within a war, anymore,
anymore

Can't you see the bad signs
We're closer to the deadline now, than before
I know after the green light
No, we can't find solutions within a war, anymore,
anymore
So it is holy
If you're fighting for religion
That's why I'm unholy
No, I couldn't find no reason
So it is holy
Whatever you believe
That's why I'm unholy
You could never justify it
