

Hating You

Jaded Heart

I don't want to stay home
I'm heading for a new town
There's No longer you, No longer me!

You scream you like me not
So i'm out of home for fist roll
I hope the streets fits better than me

I hate the way you talk and
I hate the way you look
I just hate everything on you what I see

Listen to this wild boy
Looking for a new toy
You know something you got into me

So you treat me like a stranger
Hello misery!
No I don't wanna live in anger
You're history

You saved my soul and intoxicate it
Well, Congratulations baby
You talk and talk and I just hate it
Oh I'm fucking hating you babe
Kiss your last goodbye
Goodbye, so long bye bye
Bye Bye Baby

I hate the way you stink and
I hate the way you kiss
There's nothing you that I'm gonna miss
So you'll see this wild boy
Playing with his new toy
Say to me, that's the way it is

So this is me the stranger
Goodbye misery!
I don't look back in anger
Cause you're history!.

You saved my soul and intoxicate it
Well, Congratulations baby
You talk and talk and I just hate it
Fucking hating you babe
Tease your last goodbye
Goodbye, so long bye bye
Bye Bye Baby
