

# Hole In My Heart

Jaded Heart

I feel this loneliness deep and  
When the whole world's upside down  
Been looking so hard till today  
But never again...no way

It's a lonely night in the city  
I've been looking for some place to go  
Maybe tonite there's a light on  
I'll be there where you are

Why can't you see that it makes me  
Go down, down  
All the things that You do  
It's breaking me in two

While it say Hole in my heart  
Believe me  
It's tearing me apart again  
All I want is to start from beginning  
And it's tearing me apart again

Deep in my heart there's a fire  
Burning all my demons down  
All that I have, Good or bad  
I hope you see that is me  
And take a look at the mirror  
And tell, tell what you see

All the things that You do  
It's breaking me in two

While it say Hole in my heart  
Believe me  
It's tearing me apart again  
All I want is to start from beginning  
And it's tearing me apart again

Loving you is heaven  
Missing you is hell

While it say Hole in my heart  
Believe me  
It's tearing me apart again  
All I want is to start from beginning  
And it's tearing me apart

Why can't you see, that makes me go down  
Is a hole in my heart
