

Love Is Magic

Jaded Heart

You must have tasted a bitter tear
To appreciate a smile
You must have felt the rain, you must have known fear
Too good I know it takes a while

Love is magic, oooh, love is magic
Love is magic, love will keep us alive
Love is true, love is real, it's in everyone
Love is magic, let love conquer the world
It's so good, it's so fine, it's so right

Feels so right

Another morning kisses the night good-bye
We're still laying here heart to heart
The sun is shining and as you open up your eyes
Feels like paradise right from the start

Wanna live like lovers do, Baby
Wanna live like lovers do now

Love is magic, love will keep us alive
Love is true, love is real, it's in everyone
Love is magic, let love conquer the world
It's so good, it's so fine, it's so right
