

Way Back Home

Jaded Heart

Close your eyes
Dive into the world of fantasy
and let your sweetest dreams become reality
Close your eyes and you will see
There's a way for you, for you and me

Look around
Emptiness is all that I can see
Since you've been leaving me
Turn around and tell me how
I can't stop loving you 'cause all I do
I'm doing just for you
I look around, I see your face
All I'm asking for is

Spread your wings and fly, high up to the sky
Right above the barricades, to find your way back home
Till the day I'll die I will try to comfort you
But find your way back home

Turn back time
I would like to turn back time
To the early days
The days that you were mine
I do believe that you and I
Would find another way together
If we could try, If we'd just try

Spread your wings and fly, high up to the sky
Right above the barricades, to find your way back home
Till the day I'll die I will try to comfort you
But find your way back home

Solo

I believe that you and I should never say goodbye
It's only you and I
So come on lets us try

Spread your wings and fly, high up to the sky
Right above the barricades, to find your way back home
Till the day I'll die I will try to comfort you
But find your way back home
