

# Can't See Tomorrow

Jaden Smith

All I need is a MSFTS  
You should probly bounce if you hatin on me  
if you're not with the clique you should probly leave  
I don't care, I got a camera cuz I'm not saying cheese, please  
My flows is all disgusting  
I don't care you be knockin on  
Cuz you know they letting us in  
Cuz we making some adjustments, we are the top now  
Man all I do is laugh  
I don't pay attention  
You will never see me in detention  
Homie not to mention I don't go to school m but you could always see me in t  
he session  
Cuz I'm spittin the poison  
In the studio when I'm letting my boys in  
You could come kick it but you're leaving your boyfriend  
And please shut the door cuz you're letting the noise in  
Now shut em up

Cuz I need you here  
I can't see tomorrow  
Cuz I need you here  
I can't see tomorrow

Nobody can help us, stay rebellious  
MSFTS slick as Elvis  
Man I'm ready to mingle  
Talkin to your girl as you're playing my single  
It ain't a jingle what has been changed  
And the funny thing is I don't say her name  
I say the clique  
It's just a part of my artistry  
Giving all these stupid jokers lobotomies honestly  
MSFTS, we the ones who started it  
And I kinda put my heart in it  
I wanna skate yea, we should go and fold a bit  
And now all the yellow part of it  
Shell fly that I got a girl shakin  
Nice whip, went to Malibu skating  
It's a movement, nobody can make me do anything, it's history in the making  
though

Cuz I need you here  
I can't see tomorrow  
Cuz I need you here  
I can't see tomorrow

I just put my track on  
Came on, slacks on  
My name is Jaden, you can't hate it if I made it  
Look I made it, take a look around  
I'm chasin it in my palace  
Take a look around  
Many here, I even got a callous  
MSFTS my brothers  
If you disagree then go up in the gutter  
Dressed so fly, so smooth like butter

Homie dude that stutter  
No, tell your shit to shut uo  
Many circumscrate rap shit  
I'mma die in a MSFTS casket  
When you real like classic  
My whip just got called the Jurassic, magic
