

Yup!  
Why you driving so fast? Why you driving so fast?  
Girl where you gotta go? Girl where you gotta go?  
Baby you should try drive slow, you should try drive slow  
Cause you're going 45 on the 15  
I'm just tryna stay alive on the big screen  
When you comin' up to drive all the kids scream  
I don't know baby girl you're movin' onto better things  
Usually you don't be using me  
I'm dead you cry at my eulogy  
Magic like Houdini  
Baby you taking my scrutiny out with the fireworks  
This isn't new to me  
Damn baby come drop off the roof with me  
Live up your youth with me  
Before they shootin' me  
With all their cameras and bullets  
I swear I'm the man up in France with the hooligans  
Yeah, I'm up with Centipede, you do not answer me  
I'm in the canopy  
Livin' my life like a fantasy  
Sleep with the girl like my dreams on the weeks  
So I sleep and I see my reality  
Battle me, that's your fatality  
Actually I'm a catastrophe  
Go to your school and they ask for me  
I'm in your class making cash  
And we're fruity like passion  
It's burning like ashes  
We had to just make this ish happen  
He's rappin' again  
He's snappin' again  
It happened my friends  
I'm back with the Benz  
And I know you jokers stay pissed  
So I had to make you pre-exist
