Jaden Smith

Love
The United States and the White House
Smile
Come here mama I know you want me
Food from the soul, I know you're hungry
Gave you my two cents, ain't got money, but
I'll take you somewhere fun and tell you something funny, hey
It's something funny, baby
When I open my eyes, I wish to see you
But your phone doesn't ring and you're gone all the time
Well I guess you're somewhere with your crew
Isn't the first time, but the worst time and I'm feeling so blue
You sit in your room and you listen to tunes
And I'm feeling embarrassed it's true
You out there in Paris with who?
When I open my eyes (eyes), I wish to see you
But your phone doesn't ring and you're gone all the time
Well I guess you're somewhere with your crew
I'm at the SOHO House
If you wanna come through, there's a seat just for you
My prettiest secret I hope that you keep it
I'm blue as a piece of the moon and I know I'll be seeing you soon
She said "Jaden you are my soulmate"
You only say that when you're lonely
Girl I'm suprised you even know me, ay
I'm not gon' fuck but we can kick it like we homies, ay
'Cause we just homies, baby
It isn't picture perfect
You could miss perfection in it because it is subtle
The storm is coming and it's raining cats and dogs, stay away from all them puddles
I'm keepin' it humble and noble
I spit that radiation like I'm Chernobyl
On Indus Valley, man I'm in the valley, crying myself to sleep on the sofa
I told ya I'm more than the kid with a chauffeur
Who don't know the life of a soldier, I'm older now
The world's a lot colder now
The MSFTS all stay on the up and up and I'm tryna hold it down
They stay attackin' us I'ma just weep on my willow
I look what they sayin', they playin' as I go to sleep on my pillow
But then when I open my eyes, I wish to see you
But your phone doesn't ring and you're gone all the time
Well I guess you're somewhere with your crew
This ain't the first time but the worst time and I'm feeling so blue
I'm at the SOHO House
If you wanna come through, got a seat just for you
Girl and whether you do, I invited you, so
Come here mama I know you want me
Food from the soul I know you're hungry
Gave you my two cents, ain't got money, but
I'll take you somewhere fun and tell you something funny, hey
It's something funny, baby
You need to stand for something or you'll fall for nothing
Girl this not my country, we all come from Africa
Now we're up to something
Girl you're hella grumpy
I think you're just hungry

'Cause right now you're actin' up
I don't think you want me
You just want my company
While your man is
We know all the girls who laugh at us
Girl you got me running
From you, I want nothing
Cloudy days are sucking me in
Girl you make me wanna dance, dance, dance
Put me in a trance, you never wanna hold hands
Well I guess I just missed the chance
Miss one text she gets pi- fuck this not recording anymore
Sometimes I feel like a stone, sometimes I'm feelin' like (I'm rollin')
Sometimes I feel like a stone, sometimes I'm feelin' like (I'm rollin')
Sometimes I feel like a stone, sometimes I'm feelin' like (I'm rollin')
Sometimes I feel like a slave, sometime I'm ridin' a wave
Sometimes I feel like a star, sometimes I feel like a star
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
Sometimes I feel like a star, sometimes I feel like a (I'm rollin')
(I'm rollin')
Saying that we'll run away
I doubt that we'll ever go
I hope the sunset will stay
We've traveled too far from home
Saying that we'll run away
I doubt that we'll ever go
I hope the sunset will stay
We've traveled too far from home
Saying that we'll run away
I really doubt that we'll go
I hope the sunset will stay
We've traveled too far from home
Saying that we'll run away
I really doubt that we'll go
I hope the sunset will stay
We've traveled too far from home
Saying that we'll run away
I don't wanna die, I don't wanna live a lie
I don't know wanna know
You could be my bride you could let me come inside
You could be my home
I don't wanna die, I don't wanna fantasize
I don't wanna go
But baby you could be the one I'm telling all my secrets when I'm all alone
Baby girl you know I'm rollin'
Get you without any clothes, I'm focused
Our love is drowning in the ocean, hopeless
I don't wanna die, I don't wanna fantasize
I don't wanna know
But baby you could be the one I'm telling all my secrets when I'm all alone
Baby girl you know I'm rollin'
Get you without any clothes, I'm focused
Our love is drowning in the ocean, hopeless
Rollin'
Rollin'
Rollin'
Rollin'
Baby girl you got me Rollin'

Way I'm out of your control and
I touch your body in the ocean
Then I feel these raw emotions
Syre
Passion, pain and desire just like my big bro'
What you didn't know it's this young kid's been in limbo
Since that gunshot wound on that hidden road
Lost, broken, invisible
But when that light gets low, he's invincible
So much soul that he redefined inevitable
So it'll never go
So the Sun never set at all instead of setting slow
And as the legend goes, Syre lived forever on
And never and forever alone
I'm rollin'
I'm rollin'
I'm rollin'
I'm rollin'
Saying that we'll run away
I doubt that we'll ever go
I hope the sunset will stay
We traveled too far from home
Baby we don't need a hero
I have never been a hero
Girl, I've always been a zero
Baby you should be the hero
Baby you should be the hero
Legend says Syre still exists in the midst, in the fall
Poet say he ascended to the Gods
Skeptics say he pretended to be gone
But I say that he's eternally lost
