

On My Own

Jaden Smith

Mmm

The sun is goin'
The sun is goin'
The sun is goin' down

The city late at night, hit a pinnacle
Shinin' on 'em, I rather trip alone
Put those on game, who didn't know the true form
Of pure evil, so visible, so I keep a lot of vision
They ain't met each other, usual they see you
Every night I try to read your mind and see what's in your eyes
For any chance of how we're wastin' time, 'cause all I ever know is

In the zone, in this life, arms open wide
In the zone, caught off and I'm floatin' by
In the zone, in this life, arms open wide
In the zone, let's go up
Baby, yeah we can go up
Feelin' just don't stop it now
Niggas tryna hate on us (Mm-mm)
Ain't worry 'bout a thang
Since I'm strong enough
The feelin' just don't stop it now
Baby, yeah we can go up (Mm)
Baby, yeah we can go up (Yeah)

I see the light in you, stay strong
Don't worry, we'll follow you back home
Since I've seen space, it's been too long
That's why I stargaze in my room
Bite the dust, I don't know Venus
We ran off with diamonds
The media mislead us
True wealth is knowledge
They gon' try to hold you down
But we gon get back up right now
They gon' try to mute this sound
But just know that you got that power

In the zone, in this life, arms open wide
In the zone, caught off and I'm floatin' by
In the zone, in this life, arms open wide
In the zone, let's go up
Baby, yeah we can go up
Feelin' just don't stop it now
Niggas tryna hate on us (Mm-mm)
Ain't worry 'bout a thang
Since I'm strong enough
The feelin' just don't stop it now
Baby, yeah we can go up (Mm)
Baby, yeah we can go up

I found Eden, between the Euphrates and the Tigris
I'm not dreamin', smokin' J's on 'em now
This is why, why we came
Sick, I'm dumb with the hybrids
I don't like how they speakin'

They just talkin' about us (Talkin' 'bout us)
ERYS

I seen Cudi in a mall (Woah, woah, woah, woah)
Them kids go hard (Them kids go hard)
Chain disco ball (Like disco ball)
Throw someone in the stars
Whole different Galaxy on my Atari
They tryna copy my walk
Handcuff, wrist rock
I don't listen when they talk, 'cause I heard enough
Woah, I wish, I wish, I wish
I could get a hundred mil' for the wrist
I wish I could get that highrise on my deck
Wish I didn't have to hide it when I walk, and ****
I wish, I wish, I wish that I didn't have to flex like this
I wish that I was a paramedic with the whip
I wish that I'd always bein' honest with the drug problem
I wish, I wish I'm thinking 'bout you when I'm dying like this
I'm thinking 'bout you and a girl like this, oh
